

BCIT ISSP Project Preferences

Team Name: DTC-SET V-Team 6

Team Members Names / ID#s:

1. Echo Wang / A01347203
2. Flora Deng / A01361771
3. Iris Xu / A01355093
4. Joanne Ho / A01165610
5. Niko Wang / A01363868

S. No	Project #	Sponsor Name	Reason for Selection – skills/interest of the team.
Preference #1	994	Agora Network Technologies	All team members bring strong experience and skills in web development and API integration, particularly with Node.js and TypeScript. The Shopify API integration and OAuth implementation in the Agora project align with our skills and have captured our interest.
Preference #2	998	Impulse Studios	We all find it really cool to enhance an app for motocross. With our experience in React and API integration, we're excited to apply our skills to building features like series/event/rider/venue screens and integrating APIs. We're also eager to learn

			React Native to work on mobile-specific components.
Preference #3	951	Computotal CSI	We are eager to contribute to a product that connects clients with IT professionals, as it aligns with our interest in solving real-world industry challenges. With our experience in Angular, TypeScript, Node, and MongoDB, we're excited to contribute to refining the existing features and adding new ones.
